Artisan Global Value Team Receives Investor's Business Daily Award

Milwaukee, Wisconsin. Artisan Partners is pleased to announce the U.S. mutual fund managed to the Artisan Global Value Strategy has been named a recipient of the 2023 Investor's Business Daily (IBD) award for Best International Stock Funds. The Strategy is managed by lead portfolio manager Dan O'Keefe. The award recognizes outperformance of the benchmark and commitment to delivering attractive returns to its investors.

IBD is a leading financial news and research organization that provides investors with information on the stock market and investment strategies. Each year, IBD recognizes a variety of top-performing mutual funds and fund managers in various categories through its annual awards program. Each winning fund has beat its benchmark for the past one, three, five and ten years. For 2023, IBD compared the returns of 635 international stock funds that have been around for at least 10 years and found that 66 beat the benchmark--- the MSCI EAFE Index --- in those four periods.

International investments involve special risks, including currency fluctuation, lower liquidity, different accounting methods and economic and political systems, and higher transaction costs. These risks typically are greater in emerging and less developed markets, including frontier markets. Securities of small- and medium-sized companies tend to have a shorter history of operations, be more volatile and less liquid and may have underperformed securities of large companies during some periods. Value securities may underperform other asset types during a given period. Investments will rise and fall with market fluctuations and investor capital is at risk. Investors investing in strategies denominated in non-local currency should be aware of the risk of currency exchange fluctuations that may cause a loss of principal. Past performance does not guarantee and is not a reliable indicator of future results.

In determining award winners, Investor Business Daily's analysis uses Morningstar data for each fund's historical risk-adjusted return compared to the MSCI EAFE index as of 31 December 2022. MSCI EAFE Index measures the performance of developed markets, excluding the US and Canada. The index is unmanaged; includes net reinvested dividends; does not reflect fees or expenses; and is not available for direct investment. **Past performance does not guarantee and is not a reliable indicator of future results.**
